STATE SUPPLY COMPANY

we've got the drive!

State Supply Company has proudly served West Michigan and beyond for over 75 years, now bringing that same expertise to the dairy industry. We supply high-quality mechanical and electrical power transmission products, material handling equipment, mounted bearings, and specialty parts from trusted manufacturers—built to perform in demanding farm environments.

Dairy operations run on **uptime, efficiency, and reliability**. That's why we stock the critical components your farm needs to stay running—day in and day out. From increasing equipment torque to identifying worn parts or redesigning systems for better performance, our expert team helps keep your dairy running smooth—because every hour of uptime counts.
